Appendixes

Feature For Pilgrims

During Hajj, **millions** of unfamiliar pilgrims stay in the same place for days, often getting **separated** or **lost** in the crowd.

People Finder

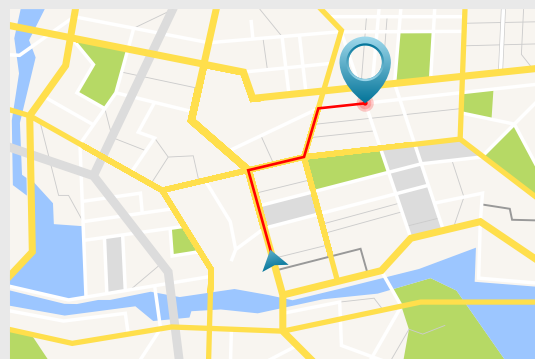

People Finder tracks each pilgrim's location in real time, making it easy to find lost members and **reunite groups quickly**.

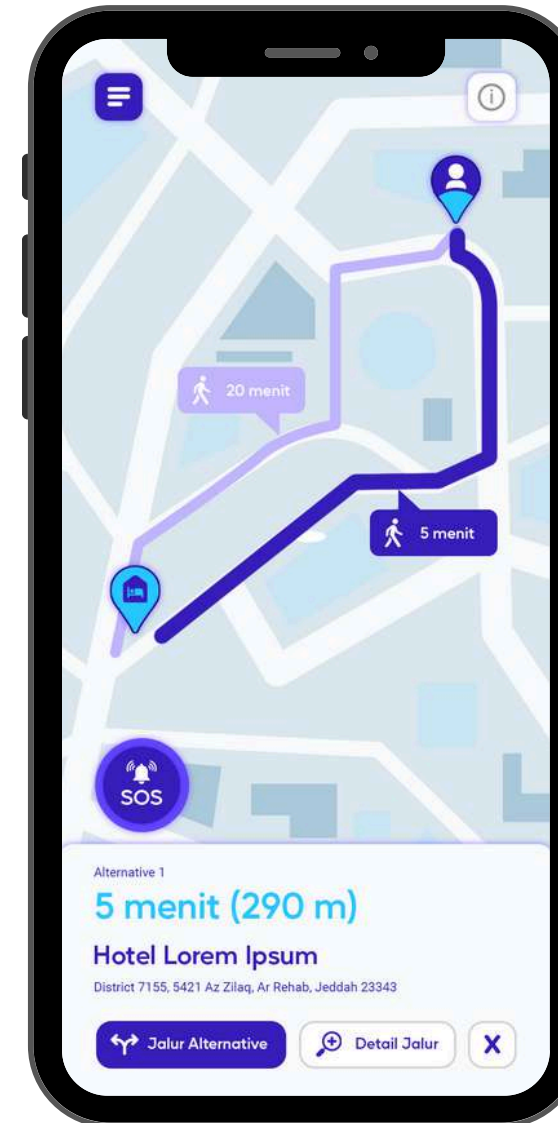

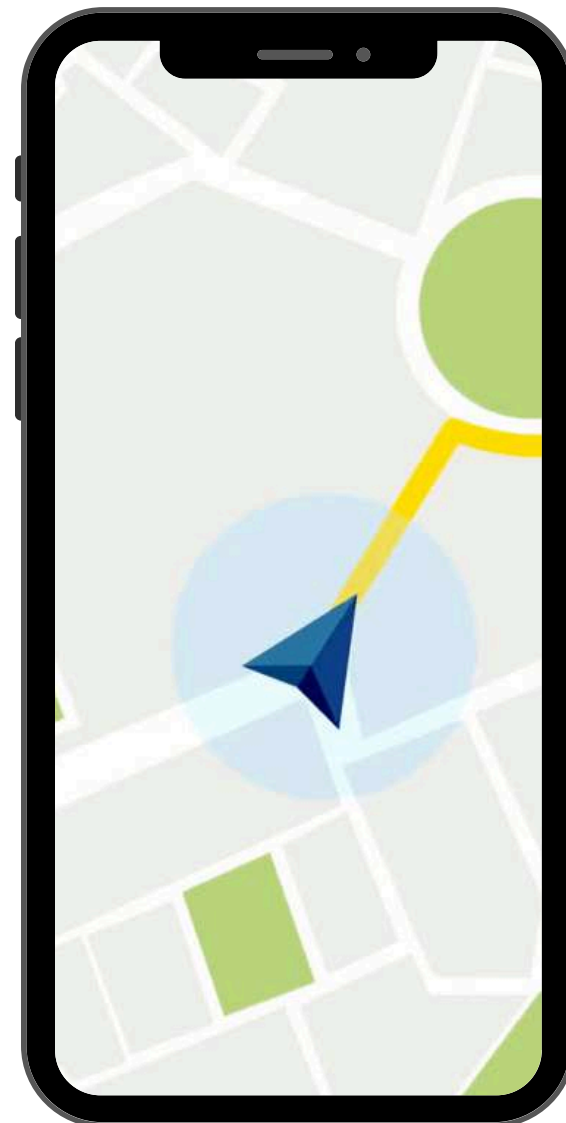

Appendixes

Feature For Pilgrims

In crowded areas like Mina, many pilgrims **struggle to find their way** due to similar-looking tents and unfamiliar surroundings. With millions around, it's easy to get disoriented or lost.

1-Click Navigation

1-Click Navigation helps pilgrims instantly navigate to key locations—such as their **Mina tent**, hotel, or nearby hospital—without manual searching. Since travel agencies pre-load these locations before departure, pilgrims can find their destinations effortlessly with a single tap.

Appendixes

Feature For Pilgrims

In crowded and unfamiliar environments, emergencies can **quickly escalate** when help is delayed. Pilgrims may **struggle to contact** their group or find assistance in time.

Emergency Button

Emergency Button lets pilgrims instantly **alert** their group and connect with local first responders.

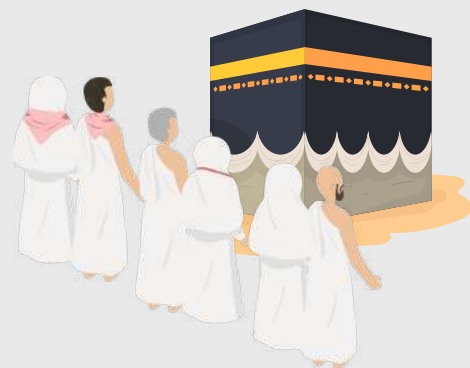

This quick action ensures **faster response** and helps prevent minor incidents from turning into serious situations.

Appendixes

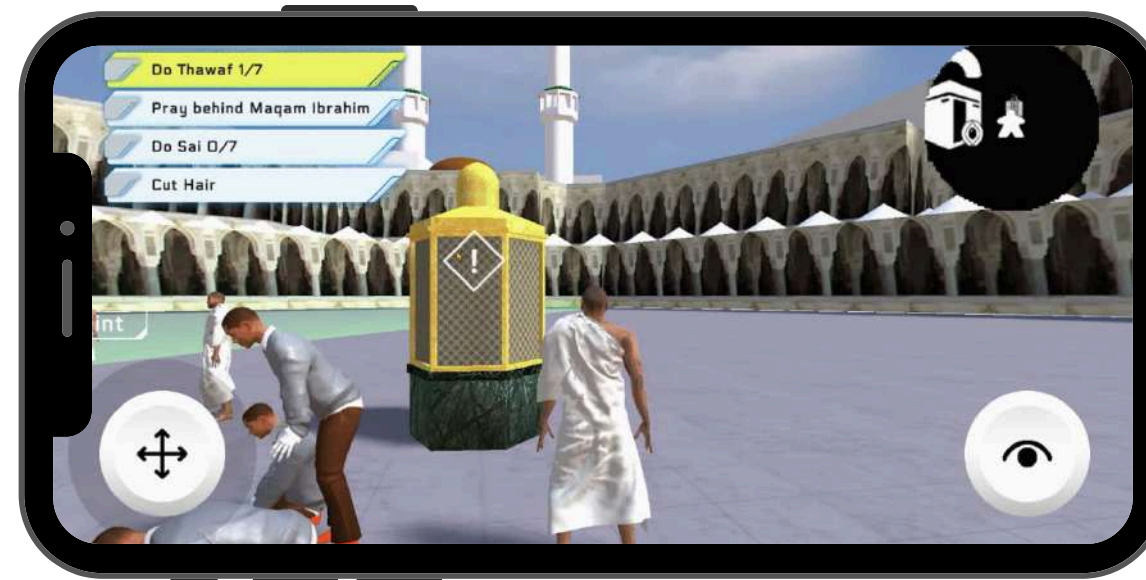

Feature For Pilgrims

Many pilgrims have limited time to learn and practice the complex Hajj rituals before departure.

This often leads to **confusion or mistakes** during the actual pilgrimage, reducing the depth and confidence of their worship experience.

Virtual Manasik

Virtual Manasik offers an interactive 3D simulation where pilgrims can **learn and practice** every step of the Hajj rituals, complete with authentic recitations and credible sources.

By allowing them to rehearse in a realistic environment, the feature ensures they are well-prepared to perform each ritual correctly and meaningfully. Currently it contains manasik for : **thawaf, sai, wuquf, jumrah, miqat, and muzdalifah**.

Future updates will also contains **non-ritual process**, such as immigration process, airplane etiquette, airport process, and social life in Saudi.

Appendixes

Feature For Pilgrims

During Hajj, millions of pilgrims from around the world gather, speaking many different languages.

This language barrier often leads to **confusion and difficulty communicating**, especially in crowded or urgent situations.

Realtime Translator

Realtime Translator enables **real-time voice translation** between **multiple languages**.

Pilgrims can speak naturally in their own language, and the system instantly translates and speaks it in the listener's language—making communication smooth, clear, and effortless across linguistic boundaries.

Appendixes

Feature For Travel Agency

Managing large groups of pilgrims is complex and **time-consuming** for travel agencies.

Tracking multiple pilgrim's documents, payments, and contact info manually often leads to errors, missing records, and inefficiencies in follow-up.

Pilgrim Management

A screenshot of a web application interface for 'Pilgrim Pal'. The left sidebar contains a menu with items: Agencies, Analytics, Balance Tags, Balances, Commissions, Contacts, Contracts, Departures, Marketing, Meetings, Pilgrims (selected), Settlements, Staff Positions, and Staffs. The main area is titled 'Pilgrims' and displays a table with columns: Gender, ID Agency, ID Departure, ID Pilgrim, Name, Amount Settle, and Price. The table contains 10 rows of pilgrim data.

Gender	ID Agency	ID Departure	ID Pilgrim	Name	Amount Settle	Price
Male	[Indonesia/Ban...	[July 28th, 202...	1WIREMN2	Ahmad Fauzan	0	50,000,000
Female	[Indonesia/Ban...	[July 28th, 202...	1RCZMFND	Aisyah Zahra	0	50,000,000
Male	[Indonesia/Ban...	[July 28th, 202...	681RQOLS	Arif Rahman Haki...	0	50,000,000
Male	[Indonesia/Ban...	[July 28th, 202...	ZRUJCBEY	Fajar Alamsyah	0	50,000,000
Female	[Indonesia/Ban...	[July 28th, 202...	CIDVSQLW	Fatimah Rahmaw...	0	50,000,000

Female	[Indonesia/Ban...	[July 28th, 202...	NELZYESX	Nabila Khairunnisa	0	50,000,000
Female	[Indonesia/Ban...	[July 28th, 202...	ER2552VY	Putri Azzahra	0	50,000,000
Female	[Indonesia/Ban...	[July 28th, 202...	C0F79P1D	Siti Nurhaliza	0	50,000,000
Male	[Indonesia/Ban...	[July 28th, 202...	V5D2EMUD	Yusuf Hidayat	0	50,000,000

Pilgrim Management system lets agencies digitally record each pilgrim's data—including documents, payments, and contact details—in one secure platform. It ensures complete, auditable records and allows agencies to easily identify payment status and reconnect with past pilgrims for future Hajj or Umrah packages.

Appendixes

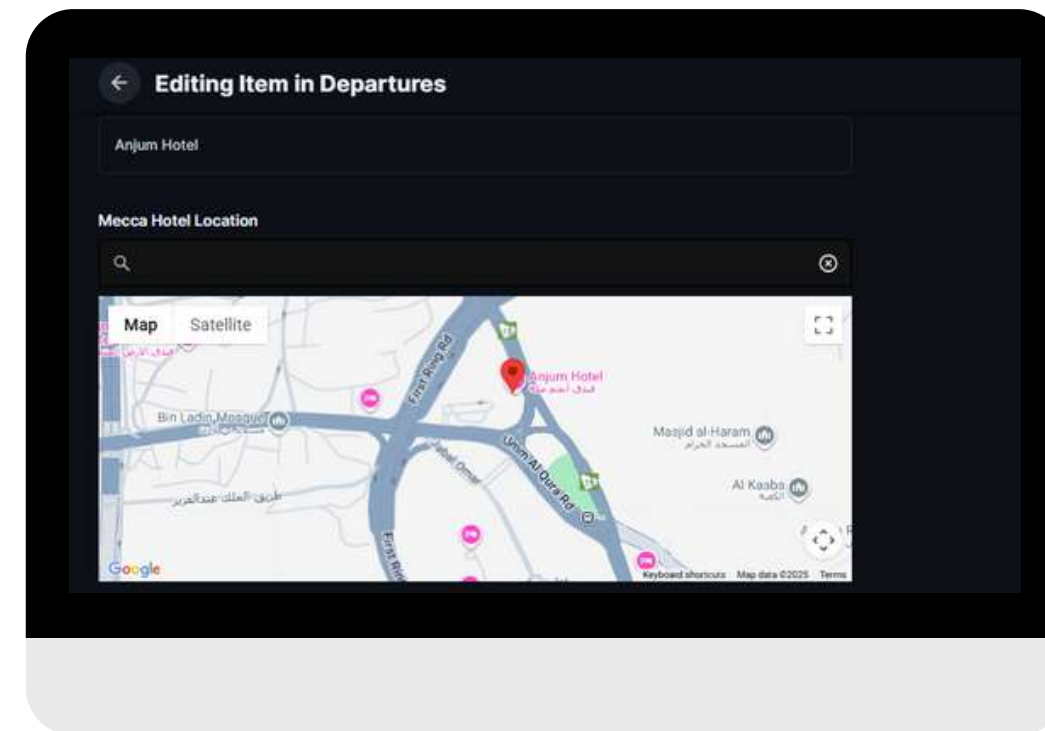

Feature For Travel Agency

Coordinating logistics for large pilgrim groups—such as flights, hotel locations, and itineraries—can be challenging and **prone to miscommunication**.

Pilgrims often lose track of key details or struggle to find accurate information during their journey.

Departure Management

Departure Management feature allows travel agencies to organize and share essential **travel details** like flight schedules, hotel locations, and itineraries directly through the app.

Information entered here will be used by pilgrims through *1-Click Navigation* on the app. Location of the **assigned tent in Mina** is also included here.

Feature For Travel Agency

Managing finances for Hajj and Umrah operations can be **complicated**, with multiple income sources and various expenses to track.

Without a clear system, agencies risk **losing transparency** and struggle to analyze their financial performance.

Financial Management

A computer monitor with a black bezel and a silver base. The screen shows a dark-themed interface with a table titled 'Settlements'. The table has three columns: 'Amount Settlement', 'Date Settlement', and 'Document'. There are five rows of data, each with a checkbox in the first column.

☐	Amount Settlement	Date Settlement	Document
☐	50,000	July 2nd, 2025 12:00	0 Items
☐	10,000	July 2nd, 2025 12:00	0 Items
☐	5,000	July 4th, 2025 12:00	0 Items
☐	10,000,000	July 4th, 2025 12:00	0 Items
☐	5,000	August 13th, 2025 12:00	0 Items

Financial Management feature lets agencies record all income and expenses in detail, generate **real-time reports**, and visualize data through charts.

This provides instant financial insights, helping agencies monitor profitability, **ensure transparency**, and make informed business decisions.

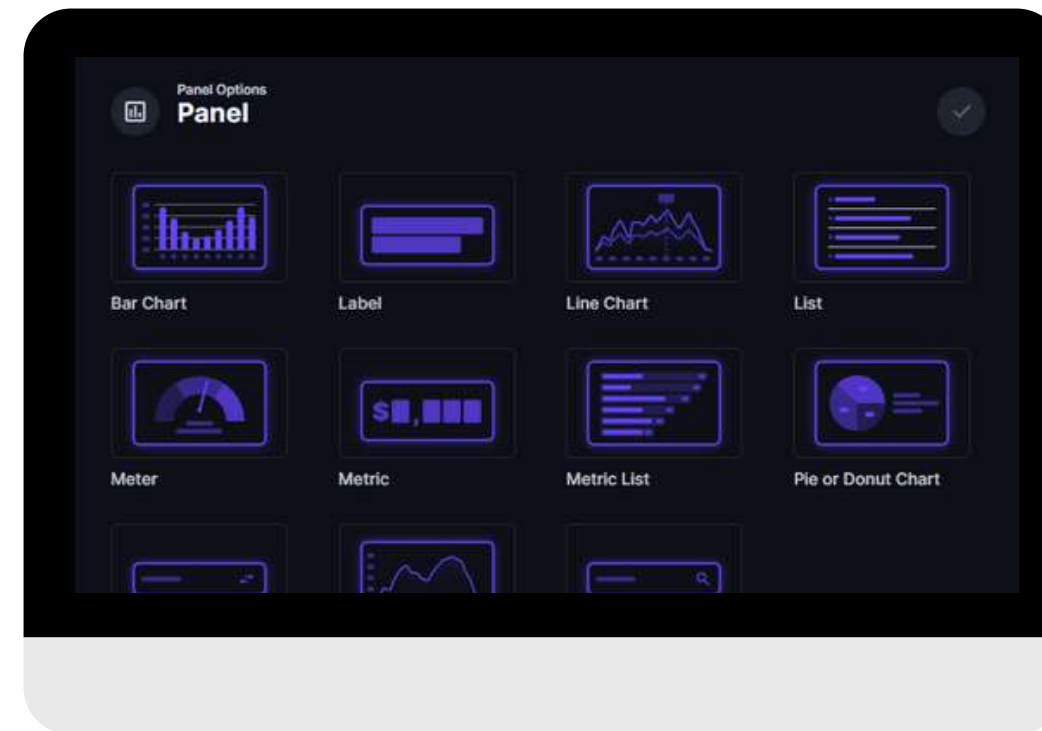

Appendixes

Feature For Travel Agency

Travel agencies often deal with large volumes of data from multiple pilgrim groups, making it **difficult to monitor** operations, identify trends, or generate tailored reports for decision-making.

Reporting System & Analytics

Reporting System and Analytics system provides interactive charts and customizable data recaps that can be filtered and downloaded **anytime**.

This gives agencies clear insights into performance, helping them track progress, optimize operations, and plan future programs effectively.
